

# IT'S NOT TOO LATE TO GET YOUR FAMILY VACCINATED!

## Vaccinate your family this flu season. It's the best way to fight flu.

If you haven't already, you can still get vaccinated.  
As long as flu viruses are circulating, it's not too late  
to get vaccinated.

Vaccination is especially important for protecting people  
at high risk of serious flu complications, including:

- young children
- pregnant women
- adults 65 years and older
- anyone with chronic health conditions like  
asthma, diabetes, or heart disease.

## #FIGHT FLU

National Influenza Vaccination Week (NIVW)

**December 4-10, 2016**
